Dance Hall Destroyed By Fire

DONORA PLANS OBSERVANCE OF ARMISTICE DAY THURSDAY

Third Blaze Reported Near Belle Vernon

The third disastrous fire to visit the vicinity of Belle Vernon within the past three weeks occured last night when the large dance hall at Fairhope was completely destroyed by flames of unknown origin. The building was a total loss and the damage is estimated at $10,000. The flames were discovered shortly after the midnight hour and the building, a frame structure, was soon a mass of flames, there being no method to fight the fire in the little village. The building has been used as a club room and dance hall, the basement being fitted out for club rooms with billiard tables, etc., while the main floor was used as a dance hall.

The first fire to visit this section was that of the Federal Supply store at Pricedale on Monday, October 18, when the structure and contents were destroyed with a loss of about $50,000. On Wednesday night, October 28 the Marion school, a two story structure of eight rooms was completely destroyed with an estimated loss of $75,000. Three hundred children attended school here and following the fire the school directors made plans to take over the dance hall for the purpose and about one hundred children were attending school here. The fire last night will necessitate another search for suitable rooms to accommodate the children until a new structure can be built. The dance hall was owned by Wynn and Snowden.

Complete Official Count

At 10:30 o'clock Friday night, the official count of the vote polled on last Tuesday was completed the task having been a Herculean one. Play Scoreless Tie

Saturday the Keystones of this city traveled to California and upheld their honors for the valley championship by holding the strong Independents of that city to a scoreless tie in a hard fought game. Before a crowd of a thousand spectators in various forms of frenzy saw the fighting orange and black of this city tearing and battering their opponents with fury only to end in a standstill. But once was the local's goal threatened when in the last five minutes of play a series of successful aerial attacks found the upriver lads on the Keystone's five yard line. Here the locals in fear of defeat displayed their championship form in turning the tide by holding them to only two yards in 4 downs, which shattered California's hope for victory.

The feature of the game was the brilliant playing and end runs of Capt. Tegnelia, the line plunging of Shumaker and Mahusky and the punting of M. Solcole, while the line showed a stone-wall defense For California Capt. Bucky, Campbell and Brown showed best. The Keystones are very much delighted over the outcome of this game, as the Independents have defeated the best teams in the valley, such as Donora, by a score of 28-0, and the strong Elco Sterlings with a 6-6 tie score. They also held the Duquesne Apprentices, a team of wide repute, to a scoreless tie.

The locals, realizing that their chances for the valley championship are very good, will be in hard practice for their remaining games with Donora, Mon City Mohawks and the Elco Sterlings. Manager Caddy has also games pending with the Wolverines of East Liverpool, Ohio, and the Wheeling Henrys of Wheeling, W. Va.

Lost His Roll

George Anderson and Matt Matki were before Burgess Stewart this morning charged with being drunk and disorderly. According to the story told the Burgess, Matki, with a party of friends had a friendly drinking bout during the day and Matki was given the privilege to show off his private roll. Anderson and his self was what with the other man's roll. It was the lady of the house who put to investigate Matki awakened and discovered that $85.00 which he had in his pockets was missing. The police were called and arrested both Anderson and Matki. At the hearing Matki could not tell where his money went and the burgess, after fining Anderson $2.00 and costs, and assessing the costs on Matki, told him if he wished to recover his money he must bring charges against some individual.

Roy and Ben Hoffman had a family argument that resulted in Ben being brought to the police station. Ben can not admitted that they have been drinking for the past two weeks and that all was not quiet and sweet at the home. Ben was assessed a fine of $2.00 and costs and Roy decided that in order to keep peace he would move.

FOREIGN POWERS SHOWING DISPOSITION TO "TRADE" WITH HARDING ON NEW PLAN

By L. C. MARTIN
(United Press Staff Correspondent.)

Washington, Nov. 9.—Preliminary work on the plan for an "association of nations" promised by President elect Harding is well along, it was learned here today.

As a result of what is now being done, it is expected that when Harding is ready to take up the question, his advisers will be able to give him complete information on these following points:

1.—How far Europe will go in "scrapping" the Wilson league and building a new one.

2.—How many senators will support and how many will oppose his efforts, together with detailed statement of the shades of opinion existing among Republican and Democratic senators.

"Conversations" now going on between certain influential Republicans and persons in foreign capitols have already developed interesting facts concerning the European attitude toward an entirely new association.

These exchanges have been, of course, entirely unofficial and informal, and Harding has had nothing to do with them. The information thus obtained, however, is regarded as a much franker expression of foreign views than if it were official.

In certain foreign countries, the inquiries made developed a disposition to "trade" with Harding. For instance, in reply to the question "What would be your government's position toward a complete revision of the League covenant, or a substitution of a new character?" The following questions were asked by one foreigner:

"What would Harding's attitude be toward helping us collect our claims against Germany?"

"What would Harding do about Russia?"

"Would Harding consent to modification of certain treaty terms?"

"Would he help the allies enforce

Two Years Since Cecession of Hostilities in World War

Two years ago on the 11th of November the Armistice which ended the world war went into effect and the guns which had cut of the lives of nearly ten million men ceased firing.

Since that day profound changes have come over the world and its people. New times are ushered in and new conditions prevail. The very foundation of government has been shaken and all human institutions have been put to the test.

Out of the war the world went into speculation, extravagance and all manner of follies. Now at last the world has recovered its senses. The smoke of the war has cleared away, the passions it engendered have cooled a little and we begin to see in its true perceptive the greatest catastrophe of all time.

It is clear to us now that the frightful destruction of war cannot enrich the world. We cannot create wealth by destroying it. There were many who thought the war had ushered in a period of unprecedented prosperity. We now are undeceived. We realize that the world has lost half its working capital and no alchemy of speculation, no legerdemain of statistics, can hide this momentous fact. The bubble of speculation has burst the mania for prodigal has run its course.

It took this bitter experience to bring the world to its senses. Humanity has just awakened from its delirium—a kind of brain fever that resulted from the surgical operation which cut off ten million men. There never was a surgical operation like that. Never a fever raged so fiercely as the one that seized the writhing body of the race and swept the whole world into folly.

Now the fever is gone and the body of humanity is deeply depressed. Presently it will begin to gain strength. The one thing that will aid recuperation and hasten the recovery of strength is the old-fashioned virtue of industry, accompanied by another economy.

The Government's propaganda on Thrift became tiresome to the prodigals, but now they would lay its truth to heart. They have personally proven the fact that there is no sure road to wealth, comfort or independence, for an individual or a nation, but by industry and economy. It is significant of a return to sanity that the sales of Thrift and Savings Stamps increased 11 per cent in October.

It is a good idea to make Armistice Day a milestone which will mark the beginning of a new era of Thrift. It is that which will restore prosperity and make life worth living.

Storage Eggs Must Not Be Sold as Fresh

Egg dealers throughout western Pennsylvania are under the scrutiny of the state pure food bureau. Today warrants will be issued for 75 retail dealers in the city of Pittsburg who will have to answer for a violation of the pure food laws. Eggs that were advertised as "strictly fresh" were purchased by agents of the department and after being tested they were found to be storage eggs sold at fresh egg prices and the arrest of the parties will result.

A state wide investigation of fraudulent egg sales is now under way and Westmoreland, Washington and Fayette counties will be heard from this week. Commissioner Foust has agents making investigations and purchasing eggs in many markets for laboratory tests. Merchants who advertise fresh eggs and collect the price of fresh eggs are expected to deliver the quality advertised.

Donora to Celebrate

The Donora Post of the American Legion has completed arrangements for the celebration of Armistice Day Thursday of this week, when it is expected that several thousand ex-service men will march in a parade that will be a feature of the many events scheduled for the day.

At eleven o'clock in the morning, the hour that brought an end to hostilities, the church bells will toll and the whistles will blow just as they did on that memorable day in 1918. During the afternoon a sports program has been arranged to include a foot ball game between ex-service men.

The parade will take place in the evening and in addition to the soldiers in uniform there will be hundreds of marchers in fancy and grotesque costume, the entire affair being in the form of a mardi gras with many prizes being offered the winners. The citizens of Donora are lending their moral and financial support to the occasion and the stores and banks will be closed during the day. An invitation is extended all former service men to join in the celebration.

Ex-Trooper Weds

Clarence E. Kemper of Wilkes Barre and Miss Eleanor M. Butterworth of Donora were granted a license to wed in Pittsburgh yesterday. Both young people are well known here. Mr. Kemper was a member of a troop of state police which was stationed in this valley during the steel strike last fall and later, securing his discharge from that organization, came to Monessen where he secured a position in the Pittsburgh Steel company, which he held until recently going from here to Allenport to work.

Arrest Many Suspects

(By United Press)

Pittsburgh, Nov. 9.—Twenty-two negroes were arrested here this morning in a roundup of suspects following an attack on Mrs. Louis Garretsky, who is in a local hospital following injuries received when a negro entered her home and brutally beat her, then stole $2.00 and escaped.

Councilman as Police

At a meeting of the West Brownsville council Saturday night it was decided to discontinue the office of chief of police and street commissioner. Later the councilmen were sworn in as officers and will protect the borough. The positions were discontinued, it was stated, due to the financial condition of the borough.

Donora Swamp

The Donora High school football team was decisively defeated by the Washington team at the county seat on Saturday afternoon last, by a score of 41 to 0. Washington has not been defeated this year, although it was held to a no score by Charleroi earlier in the season. Next Friday afternoon Donora and Monongahela will play at Quinn Park. Monongahela.

Gamblers Under Arrest

Donora police early yesterday morning, with the assistance of Constable Charles Titus, raided an alleged gambling joint above the Victoria theatre in the business section of the town and arrested the proprietor, Frank Vellella and twelve very prominent young men of the town. They were taken to the police station where all gave fictitious names and posted $10.00 forfeits. None of the prisoners appeared for a hearing.

A complete gambling outfit was confiscated in addition to the green table around which the twelve young men were evidently enjoying a game of cards. The raid was made about three o'clock in the morning after neighbors had complained to the police. The alleged proprietor was rearrested and will probably be held for court on a charge of operating a gambling joint.

Birthday Party

A masquerade birthday party in honor of Miss Sadie Cooper and also her sister, Mrs. Mary Deter, whose birthday occurs in the near future, was held Saturday evening at the home of their sister, Mrs. Hiram Learnard on Summit Ave. Each of the guests selected a partner and were ushered into the dining room where they unmasked and partook of a dainty lunch served by the hostess, Mrs. Mary Deter and her able assistants. The evening was spent in music and games. Miss Cooper and Mrs Deter were the recipients of many beautiful presents. At a late hour the guests departed for their homes wishing both parties many more birthdays. Those present were Mr. and Mrs. R. Teeters, Mr. and Mrs. John Benson, Mr. and Mrs. William Harris, Mr. and Mrs. Ray Morgart, Mrs. S. E. Morgart, Mr. and Mrs. Abe Teeters Mr. and Mrs. Geo. Cooper, Mr. and Mrs. Thomas Teeters Mr. and Mrs. Ed. Corwin, Mr and Mrs. Ed. Learnard, Mr. and Mrs. H. Learnard, Mr. and Mrs. Ernest Learnard, Mrs. Mary Deters, and the Misses Virginia Deter, Carrie Teeters, Emma Teeters, Margaret Cooper, Thelma Cooper, Rosa Stassin, Elizabeth Meyers, Marion Deter, Dorothy Teeters, Doris Cook, Lillian Zellars, Pauline Dufarr, Sadie Cooper, Lola Cook, and the Messrs Henry Benson, Harold Lashfoot, Arthur Hempgood, William Teeters, Melvin Cook, Harold Williams, Wm. Cooper, Edward Learnard, Russell Zellars, Leonard Cook, Frank Cook. Out of town guests were Mr. and Mrs. Thos. Holland and Hazzari Holland of Monongahela; Messrs Charles Welch, Steve Dargarin of Charleroi and Charles Layton of Belle Vernon.

Strikers Fatal Battle

By RALPH H. TURNER
(United Press Staff Correspondent.)

Mexico City, Nov. 9.—One hundred and fifty eight lives have been lost to date in fighting between Socialists and Liberals in the state of Yucatan. The government has rushed 600 soldiers to quell fighting forced by the Socialists who attacked Merida, the capitol, Motul and Tekato.

Socialist fighters, crudely organized and poorly outfitted were said to rush to the attacking "Viva La Republica Soviet."

Coincidentally with the Socialist fighting, agitation for a general strike in Mexico was pressed by communist agitators.

REPUBLICAN IN POLITICS

HOUSES

The housing situation in New York was considered so acute that a special session of legislature had to be called in an attempt to deal with it.

And yet a recent checkup of empty houses in New York City's fashionable residential center shows unused houses capable of housing 10,000 people. This survey was made by socialist aldermen of New York. Of course the purpose of the survey was to make socialist propaganda. Discounting this, it is nevertheless significant that so many empty houses could be found in a city as crowded as New York. Thousands of homes on Fifth avenue, Park avenue and Riverside Drive are standing idle and have been so standing in many cases during the whole summer; many of them stand idle practically all of the time.

The city health department of New York has officially estimated that 400,000 people in the great city are improperly housed.

At the same time at least 500 houses in Manhattan alone, each having a minimum of 20 rooms, is standing tenantless.

Of course, people have a right to own homes and to leave them, if they desire, to visit or travel or for other purposes. But is there a moral right for a few people to own so many homes that many of them must stand vacant the greater part of the year, while 400,000 people in a great city live under conditions that are a menace to health, or are unable to find houses at all?

It is not the use of private property, but its abuse that creates material for the radical propagandist. The knowledge that the rich of New York city are holding out of use houses that if available would take care of at least 10,000 people is not the best advertisement for any city.

JUST A FEW FACTS

Wheat was being threshed on American farms. Farmers need financing. American bankers didn't have the money, they said. Anyhow, they insisted they were not going to help wheat growers of the United States hold up the public by loaning money to them.

Cuban sugar crop comes near the harvest. Cuban plantation owners need financial support. Sugar price was bumping down grade. Predictions were made that sugar prices would reach normal level. Cuban sugar growers appeal to American bankers.

"The decision of American bankers to extend financial aid to Cuba has been a favorable influence," reports the Wall street Journal.

This "favorable influence" is apparent in the following excerpt, also from the Wall Street Journal:

"The advance in price of refined sugar to 12 cents by the National Sugar Co., and B. H. Howell Son & Co., and the re-entrance of the American Sugar Refining Co., into the market after a long absence, is taken as an indication that leading refiners believe the bottom of the sugar decline has been reached and a period of greater price stabilization is anticipated."

Financial support for Cuban sugar, none for U. S. A. wheat.

USE YOUR HEAD

Ninety per cent of all accidents occur in public highways. Auto accidents have grown from nine per million population to 100 in 1919, and an estimate of 110 for each million inhabitants in 1920. Which means one death every 31 minutes of the 16 allotted waking hours.

These are statistics on the United States, from C. M. Talbert, chairman of the public safety section of the National Safety council.

And what's the answer? Carelessness comes about as near as anything.

If pedestrians will watch their step a bit closer and machine drivers will watch their drive closer, America can cut down this unnecessary and alarmingly high, death rate.

This aged newspaper joke about the women who use the rolling pin in their controversies with their husbands, was much more appropriate in the days before the women purchased all their cooked food at the bake shops.

When fished out of the North River by the New York police a youth said he was trying to swim to Russia. They should have let him go on his promise not to come back.

The modern girl with her hair spatted over her ears and arranged in other eccentric forms, reminds one of the Fiji Island girls shown in missionary magazines.

Cotton planters complain that they face a $500,000,000 loss. They were more tacitturn when they faced an equivalent gain.

A Kansas City man broke his leg while making a cup of tea and the wets are foolish enough to seize on this as an argument.

Formerly the police used to look for the footprints of the burglars, and now they look for the marks of their automobiles.

Even Harding's statement that he would employ the country's best brains failed to lure a murmur out of Bryan.

The money in circulation is $51.06 per capita. But, my dear, you can't get a decent hat for that.

SIMPLE PLAN RESTORES HEALTH AND YOUTH

Hundreds of Thousands of Families Finding Health and Happiness By Following Plan.

H. H. Von Schlick is known to millions of men and women as a human benefactor.

He gave the secret of his transformation from a sickly, dyspeptic sufferer to a strong, energetic man.

At 40 Mr. Von Schlick, a wreck physically from stomach, liver and blood diseases, chanced to meet Boris Marokeff, a native of Bulgaria.

Marokeff, at 96 years, was a physical giant, with mind clear, eye keen and complexion ruddy.

Marokeff explained that in his country the natives never depart from nature in forming health plans. The rugged children are kept in condition by 14 herbs which free the system of poisons, purify the blood and kidneys, keep the stomach in condition and regulate the liver.

"I'll make it for you," he told Mr. Von Schlick. "It is composed of leaves, bark, flowers, roots, plants, seed, berries and herbs. You will note a new feeling."

Mr. Von Schlick tried this nature tea; Marokeff's formula was a great discovery. He took on a new lease of life. Today at near 60 he is younger than when he began using the tea at 40.

Von Schlick secured the herbs from Europe, Asia and Africa. Von Schlick's sickly wife became strong. She gave it to women friends. Mr. Von Schlick consulted physicians, who tested its merits and who are today giving it to their patients.

During the terrible 1918-19-20 influenza epidemics Bulgarian Blood Tea was used by countless thousands of sufferers. They met with marvelous success. Millions of people took it steaming hot to kill colds and guard against the "flu."

The fame of Bulgarian Tea spread. Today it is used by millions of sufferers in every state in the Union fighting off old age weaknesses. They include happy girls budding into womanhood or women crossing precarious thresholds of life. All praise and recommend it. Men recover their strength and vitality, the blood becomes rich and pure and the fire and spring of youth returns to those who were in despair. To fortify the system against Colds, Influenza, Pneumonia and winter ills nothing equals this wonderful medicine.

All druggists now keep Bulgarian Blood Tea in stock, but owing to the enormous demand immediate application to your druggist is urged on account of the limited supply. Distributors are authorized to return the full purchase price if it does not prove to be highly beneficial to the health. This evidence of faith in the power of Bulgarian Blood Tea is the guarantee of the Marvel Products Company, sole manufacturers, Marvel Building, Pittsburgh, Pa., who authorize this public announcement.

Lessons for Firemen

Harrisburg, Nov. 9.— Volunteer Firemen throughout Pennsylvania are receiving lessons in the most approved methods of fire fighting from the State Bureau of Fire Protection. A pamphlet has been issued by the Bureau and it has been sent to chiefs of all fire departments for distribution to their members.

The pamphlet contains twenty lessons covering all phases of fires, their origin; the proper handling of nozzles; cellar, subway and ship fires roof lines; hose, nozzles and pressures; still alarms; chimney fires, grease, oil, paint, tar and similar fires; defective flues, gas fires, electric fires, duties of truck companies, how to open locked doors, and the proper methods of combatting all kinds of fires.

According to Major C. M. Wilhelm chief of the bureau, this is the first time fire-fighting information has been compiled for this purpose. He said the lessons contain instructions that will have a far-reaching effect in reducing the enormous fire loss in this state.

The lessons were prepared by Frank Hockreiter, chief of the Fire Department of Wilkes-Barre, co-operating with the Bureau of Fire Protection.

Hypo-Cod is Wonderful Medicine for Giving a Man New "Pep."

"I suffered from indigestion and loss or appetite and I got so I could hardly stand to look at food without being nauseated. My nerves were on edge and I surely was on the down grade, when I started taking Earle's Hypo-Cod. It is wonderful medicine. I soon got back my appetite. Began gaining in weight and strength and sleep good every night. It is exactly what a person needs if troubled with their stomach, nerves, and general system. It builds you right up to vigorous health according to my experience with it," declared Paul Benshoff, R. F. D., Johnstown, Pa.

Instead of attempting to do a full days work with the system in a depleted, nervous, weakened condition, drop in at the drug store like thousands of others are doing and put your system into vigorous robust shape again.

Earle's Hypo Cod is said to be the most modern and powerful reconstructive tonic made by Chemists, druggists and experts. Thousands of users endorse it. Each bottle bears the name of the nationally known Earle Chemical Co., which assures you of quality in medicine. Read the formula on a bottle at your druggist's today. Take home a bottle. BAD SIGNS

Colds, Soreness and other Inflammations you can't shake off are Bad Signs

Serious complications may result from them; in any case, they will become chronic, unless expelled from the system before it is too late.

For the relief of deep-seated inflammations, try applications of Krew-Pina Ointment and the Krew-Pina Vapor Treatment. Anoint the surface of the skin over the afflicted part; rub in briskly and cover warmly. Also, apply Krew-Pina in the nostrils. Do this upon retiring, and draw the bed clothes up over the nose, inhaling the medicinal vapors the warmth of the body releases from the ointment.

The Krew-Pina formula is highly effective, and the ingredients are all simple home remedies such as Oil of Pine and other volatile oils—Krew-Pina is powerful, but absolutely harmless.

Try it and see why it is always kept in the medicine chest by thousands of families for use in cases of cold, sore throat, feet or joints, croup, coughs, burns, bruises, cuts, etc. 30c and 60c jars with printed directions—at your druggist's.

Free Sample of Krew-Pina WILL BE SENT TO ANY ADDRESS ON REQUEST.

WOMEN SHOULD TAKE WARNING

If the statement made at a New York Assembly of women, that healthy American women are so rare that they are almost extinct, is true, it is time for the women of America to take warning and look to their health. It may be headaches, backaches, dragging down pains, nervousness, mental depression that are tell-tale symptoms of some organic derangement for which Lydia E. Pinkham's Vegetable Compound—a simple remedy made from roots and herbs—is a specific and may be relied upon to restore women to a healthy normal condition. 1t

About thirty-five ladies representing the Ladies Aid Society of the First Presbyterian church assembled at the home of Mrs. A. R. Ney last night and enjoyed a very pleasant evening. The object of the gathering was to prepare articles for the doll booth for the annual bazaar to be held early in December. The lunch committee had a very pleasing lunch prepared and all enjoyed the evening very much.

The Ladies Card Party at the Monongahela Valley Country Club on Wednesday afternoon is being looked forward to with great interest on the part of members and as the closing of the club for the winter is not far distant, it is expected the attendance this week will be very large. The W & J college boys' orchestra will furnish the music and Lee Bailey the steward, is planning to have a good dinner. Dancing will be in order during the evening. Dinner reservations must be made in order to secure accommodations.

Restrict Immigration

Washington, Nov. 9.—The closing of America's doors to immigrants for a period of several years, will be urged upon Congress when it convenes December sixth, according to members of the House immigration committee.

Representative Johnson, of Washington, chairman of the committee will arrive at the capital soon, according to word received at his office today. He plans to start committee machinery to get early consideration of an immigration restriction measure.

A bill restricting immigration already is before Congress. It was introduced at the last session as well as the session before but the House was unable to give it attention because of the press of other business. Johnson wants it taken up at this session soon after it convenes on December 6.

Several arguments for the passage of an immigration restriction bill will be advanced by its sponsors. One will be that immigration has reached a pre-war figure and is rapidly going beyond it. Another will be that a flood of Austrian and German immigrants are expected to rush for American shores as soon as peace with those two countries is established.

The proposed restriction measure will have the support of the American Federation of Labor whose officials today declared that the flooding of this country with cheap European labor will result in lower living standards for the great mass of workers. Organized labor also claims a block of fifty votes in the House which can be counted in support of the measure.

Foreign Powers Showing Disposition to Trade

(continued from first page)

the treaty?"

The whole of a considerable correspondence between certain Americans and their European friends in three countries, extending over many weeks, shows a distant willingness to meet Harding at least half way. Through it all runs the same idea—that Europe must have American cooperation and is not disposed to stick at the terms.

While this information is being gathered abroad other agencies are preparing for Harding an analysis of the domestic situation with regard to the league. Harding regards the election as a popular vote against the Wilson league. But he has to reckon with Root, Taft and other influential Republicans who do not want to see the Wilson plan discarded entirely. There are some Republican senators, too, who favor ratification of the Wilson league with strong reservations.

Indications are that Democrats are preparing to negotiate with these Republicans, perhaps at the short session of Congress, to ratify the treaty with the Lodge reservations, the Democrats agreeing to vote for them. Some Democrats believe this plan would succeed and for them it would be better, they argue, than to let Harding and the Republican senate scrap the whole league. If the Republicans refuse this offer, they are to be threatened with defeat of Harding's association plan when he submits it. There are enough Democrats to prevent a two-thirds vote for any treaty if they stand together.

To Fight Reduction

By RALPH F. COUCH
(United Press Staff Correspondent.)

Washington, Nov. 9.—Labor's fight against any attempts to reduce wages faster than the cost of living goes down will be planned when the executive council of the American Federation of Labor meets here Thursday, Frank Morrison, secretary of the American Federation, said today.

"Labor will fight any attempts to reduce living standards," Morrison said.

Labor leaders here believe big employers are combining to cut wages and establish the open shop.

The contention of laboring men is that prices have not been cut far enough to warrant wage reductions.

"We have heard a lot about reductions in living costs recently," said Morrison. "The reductions, however have been for wholesome prices only. Retail prices have been little reduced.

Jett Lauck, economist expert, today described living cost reductions as "too slight to justify any reduction in wages."

Lauck quoted reports to the National Industrial Conference Board, organized by manufacturers which show, he said, that in October retail prices declined an average of two per cent as compared with September.

"Food went down 2 1-2 per cent," he said. "Clothing dropped 3 1-2 percent, but rent showed no decline whatever, while fuel and lighting costs advanced 7 per cent and sundries 3 per cent."

Leaders say the A. F. of L. will back individuals in every part of the country in fighting wage cuts.

The HOOVER

IT *BEATS* .... AS IT SWEEPS AS IT CLEANS

Reserve Your Hoover Now and Avoid Waiting Later!

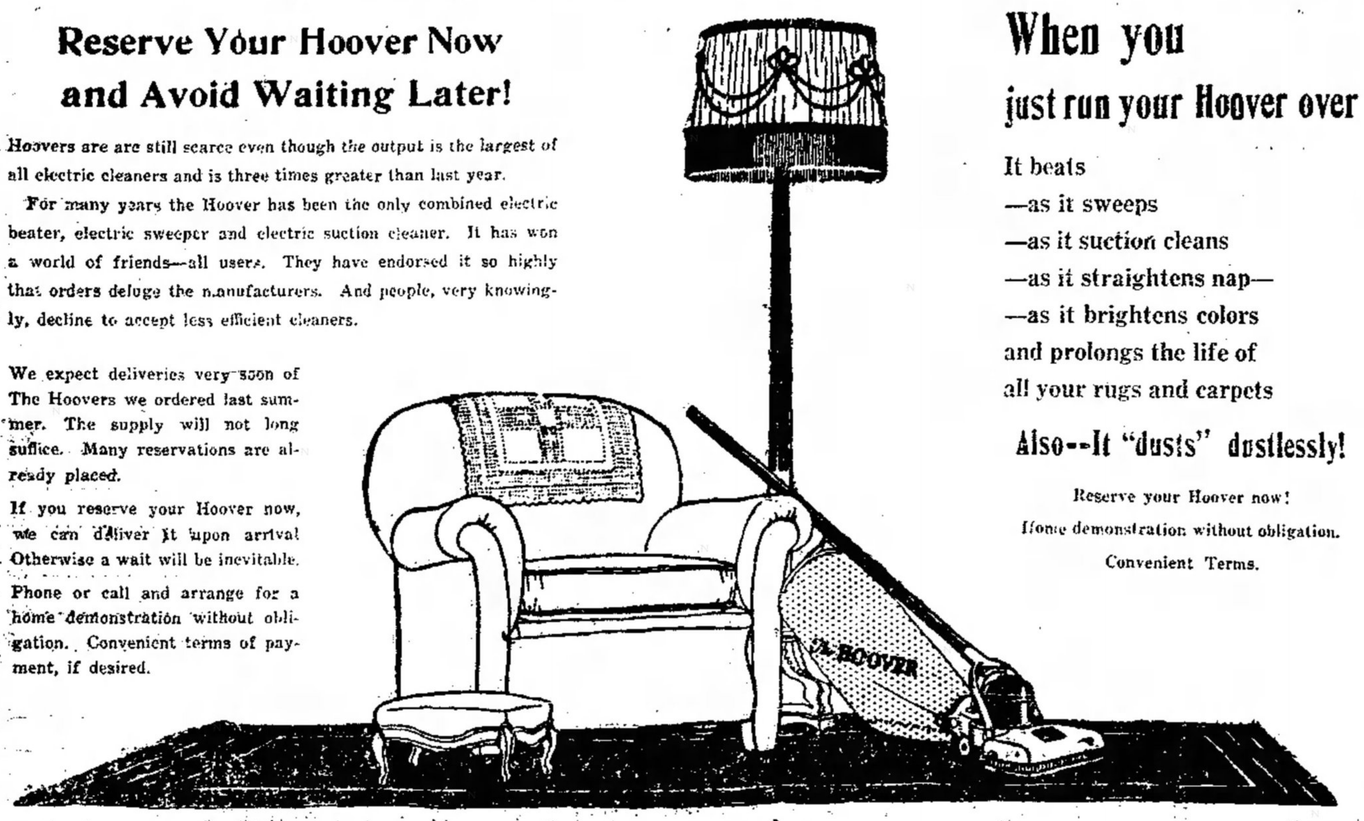
Hoovers are are still scarce even though the output is the largest of all electric cleaners and is three times greater than last year.

For many years the Hoover has been the only combined electric beater, electric sweeper and electric suction cleaner. It has won a world of friends—all users. They have endorsed it so highly that orders deluge the manufacturers. And people, very knowingly, decline to accept less efficient cleaners.

We expect deliveries very soon of The Hoovers we ordered last summer. The supply will not long suffice. Many reservations are already placed.

If you reserve your Hoover now, we can deliver it upon arrival Otherwise a wait will be inevitable.

Phone or call and arrange for a home demonstration without obligation. Convenient terms of payment, if desired.



When you just run your Hoover over

It beats
—as it sweeps
—as it suction cleans
—as it straightens nap—
—as it brightens colors
and prolongs the life of
all your rugs and carpets

Also--It "dusts" dustlessly!

Reserve your Hoover now!

Ancient Pomp at Lord Mayor Show

(By United Press)

London, Nov. 9—With centuries old civic pomp and pageantry Alderman James Roll was today inaugurated Lord Mayor of London for the ensuing year. The picturesque "Lord Mayor's Show"—a two mile procession which annually dislocates traffic in the heart of the most congested districts of the City of London—attracted the usual masses of sightseers, although it is the customary thing for Londoners to shrug their shoulders and profess to regard it as a tiresome anachronism, "not worth going to see, my boy." However no Lord Mayor has yet been bold enough to cut out this expensive pageant, and it is certain that all true Cockneys would protest loudly if the ancient ritual was adopted.

Lord Mayor Roll is an insurance company magnate, having been managing director of the Pearl Insurance Company, with which concern he was connected for fifty years. The son of a Norfolk farmer he came to London as a boy of fourteen, and—as he puts it himself—"By hard work and a little luck" he worked himself up from the humblest position. He is a typical Englishman of the Dickensian style, rather like the late King Edward in manners and appearance. He is passionately fond of horses and coaching, and now in his 72 years is still a famous whip.

The office of Lord Mayor is no sinecure. Nor is it a profitable one, for although there is a salary of ten thousand pounds for the year, the occupant of the Mansion House usually has to spend four or five times that amount as official "Host" for the City of London.

Taxation Important Question

Whether a Constitution is up-to-date or behind the times, progressive or reactionary, is decided first of all by what it has to say about taxation. The clauses which have to do with taxes furnish the surest test as to whether property rights or human rights come first.

The most important point in which the present Constitution of Pennsylvania differs from the Constitution of the United States is this—the Constitution of the United States of America permits the levying of graduated or progressive taxes, while the Constitution of Pennsylvania does not. Our present National income tax law, for example, which rightly takes for public use a larger percentage from an income of $100,000 than from an income of $10,000, would be unconstitutional under the state law in Pennsylvania today.

The Constitution of the United States recognizes it as right that the rich man should contribute out of his abundance a larger percentage for public purposes than the poor man out of his need. The present Constitution of Pennsylvania does not. It requires the Legislature to tax each dollar equally, whether that dollar is part of the superfluity of the millionaire, or part of the hard-won earnings of the farmer, the mill worker, the factory hand, or the underpaid woman in industry.

The provision of our present Constitution is chiefly in the interest of the very rich and against the interest of at least 99 out of every 100 people in Pennsylvania. Yet the Commission on Constitutional Revision and Amendment has voted to retain it in the new draft. By a large majority, it rejected an amendment providing that the subjects of taxation may be classified for the purpose of laying graduated or progressive taxes. Although this amendment has already received the approval of the Legislature, I believe, by unanimous vote.

To say that every dollar must be taxed equally may sound fair and reasonable until you come back to think it over. But when you have thought it over, you will see that an equal tax per dollar means an unequal sacrifice per man. What we want to equalize is the burden of taxation, so that it will be felt by all alike. Whether it is equal on each dollar we do not care, so that it be equal on each man.

There can be no reason why the new Constitution of Pennsylvania should be less careful of human rights, and more zealous for property rights, than the Constitution of the United States. Washington and Jefferson, Franklin and the rest, nearly a hundred and fifty years ago, found it wise and necessary to leave the door open for graduated taxation The people of United States accepted that principle and in the form of a National income tax have recently enacted it into law. Either Pennsylvania is less enlightened and progressive than the rest of the United States, or the proposal to keep the dollar ahead of the man in this Commonwealth is intolerable.

If the Constitutional Commission should refuse, at the final revision, to include in the proposed document some effective provision for graduated or progressive taxation, and if the document finally submitted to the people fails to include it, then in my opinion the proposed new Constitution ought to be rejected, and will be rejected, by the people of Pennsylvania.

Deliver Newspaper By Air Routes

(By United Press)

Altoona, Pa., Nov. 9—The United Press recently introduced a system of delivering newspapers by air in the central section of the United States, when it instituted an airplane service between Pittsburgh and Cleveland. The success of this first air mail led the Penn to consider adopting this mode of transportation between other towns where it has a large number of subscribers.

The actual flying time for the entire trip was one hour and 24 minutes. The fastest railroad schedule is five and 55 minutes to cover the distance between Altoona and Harrisburg.

The large difference in time was in part due to the fact that the distance of nearly 100 miles being shortened by the airplane soaring in a straight line over the Allegheny mountains, while the railroad is forced to circle the steep grades.

$20,000,000 Will be Spend to Save Europe's Childhood

(By United Press)

Paris, Nov. 4—Two years after the armistice, the American Red Cross today is still Big-Brothering eighteen war-stricken European nations, helping to clean up the human refuse of the war.

Over a thousand American nurses, doctors and relief workers wearing Red Cross insignia are scattered throughout Europe ministering, in many cases, to the same people against whom they were fighting in 1918. It is estimated that around 400,000 received help last month in Austria-Hungary and Poland alone.

At the general headquarters in Paris, the organization holds itself ready to answer a call for help from any part of Europe. When the thousands were rendered homeless by the earthquake in Italy, the American Red Cross rushed quantities of provisions and crops of skilled doctors to the devastated Carrera district. When General Denikin's offensive collapsed in South Russia and some two million refugees crowded into Crimea, the Red Cross saw to it that they did not starve.

In devastated France one and a half million francs worth of provisions were distributed free this last year. An equal amount was handed over to needy in Eastern and Central Europe.

In fact, all Europe has formed the habit of looking toward the American relief organization to direct "first aid" measures, no matter where the catastrophe or suffering may be. Thanks to it and the Hoover Relief Commission, America has gained the reputation of the world's great altruist and philantrophist.

With a 1920 appropriation of $20,000,000 already assured for next year's work here, Red Cross chiefs are planning to concentrate on child welfare throughout the continent, thus helping to stave off the ill effects of war—physical and mental—upon the coming generation.

The Red Cross plans to put 150 trained units in the field to look after the physical welfare of the 2,000,000 children whom the American Relief Association is feeding. Up to the present the Red Cross has been able to go into this work on a limited scale only.

Artificial Silk Bought By The U.S.

By CARL D. GROAT

(United Press Staff Correspondent)

Berlin, Oct. 24—Factories which formerly made the stuff to deal death on the west front are now turning out wonderous artificial silk to adorn womankind and mankind.

The artificial silk industry, already underway before the war, has been greatly augumented and is now in a position to establish a considerable competition not alone with the real silk industry but with the artificial silk factories of other lands.

German experts are striving now to overcome the drawbacks attendant up on the artificial brand, or "Kunstseide," as they call it. Dampness has a deteriorating effect but research work shows that this disadvantage will soon be disposed of.

American buyers are manifesting a strong interest in the new business and declare that there is a great demand for this product.

Herr Geheimrat Hagemann chief of the artificial silk branch of the government's economic ministry, told the United Press:

The silk was made in Germany even before the war in considerable quantities. But the demand for it has increased since the war since the spirit of all peoples since the war and revolutionary period is for a better life and this is expressed in one way through the universally prevalent desire of the woman's world for gay colors.

"In addition to the old silk factories of pre-war times, there are now a number of former explosive factories engaged in producing the artificial product. This is explained by the fact that both explosives and artificial silk are derived from cellulose. Among others, the big explosive factories in Koln-Rottweil are being converted into silk factories, while the explosive factory at Zehlendorf, near here, along with numerous other factories are engaged in the same occupation.

Aid to Thrifty

Washington, Nov. 9.--Some of the most prominent educators in the United States will gather in Washington, November 12th and 13th to confer with officials of the Savings Division of the Treasury Department. Their mission is to work out with Treasury officials plans and materials for making simply principles for the saving and investment of money a permanent and compulsory part of the American public school curriculum, and for the use of Government Savings Securities as the practical medium for applying those principles.

This group of educators was selected by the State Superintendents Section of the National Education Association at its convention in Salt Lake City last July. Ever since the war, the educators of the country have recognized the necessity of the training of children in the principles of financial safety, and this committee was appointed so that they might confer with the Treasury officials a system for instruction and material of the kind which would be available for use throughout the entire country.

The committee consists of Mrs Mary C. C. Bradford, State Superintendent of Schools of Colorado and former president of the National Education Association; Thomas F. Hegan, State Superintendent of Pennsylvania; P. P. McCracken, State Superintendent of Iowa; A. O. Thomas, State Superintendent of Maine; Miss Annie Webb Blanton, State Superintendent of Texas; J. J. Mace, State Superintendent of Utah and Miss Clem Humpton of the State Department of Education of Florida.

The committee, it is expected, will confer with Secretary of the Treasury Houston during their meetings.
